

DOCUMENTIQ

Cost effective and secure electronic document management solution

DocumentIQ helps organizations reduce the expense of printing and storing paper still maintaining assurance of full legal and regulatory compliance.

- Create, store, and present any document online, any time
- Access by multiple people at multiple international sites
- Reduce security risks, eliminate document loss, decrease the expense of printing and storing paper
- Highly secure SAS 70 Type II data centers

In today's business environment, documents must be simultaneously accessible to multiple people, at multiple sites regionally, nationally, and internationally. With DocumentIQ, you can create, store, and present any document online, any time.

Digital documents improve accessibility, reduce security risks, improve access control, eliminate the risk of document loss, and greatly reduce the expense of storing paper for archival purposes. Digitizing documents is also your best assurance of full and economical compliance with a wide variety of legal obligations for document retention and production in the event of a regulatory challenge, litigation, or compliance questions.
